

## Facilities and Buildings

The School is set in the Stockland Green ward of Birmingham. Brookvale Primary School is a well maintained and equipped school. Examples of the facilities at Brookvale Primary School include:

7 classrooms each with an interactive whiteboard and projector.

A multi purpose room used for teaching in all curriculum areas

Portable laptops/notebooks and ipads

A large school hall

School allotment area

Dedicated Reception play area

Large outside area with trim trail and lots of seating

Outdoor wildlife area including pond and other science related resources

ICT is at the centre of our planning and is used to support and promote learning and teaching throughout the school. We have a number of resources that support ICT in the curriculum including digital cameras and a green screen. We will continue to develop our ICT equipment so that we keep up with the pace of change.

We have an outside area that the school is rightly proud of and it helps to represent the schools belief in a healthy lifestyle. This includes a "Trim Trail", and marked out play areas that allow for structured and imaginative play. We have installed exercise equipment which is extremely popular.

It is a safe environment with something for the most energetic of children to do.
